

Understanding your medical bill

Immediate Care/Outpatient Services

About Billing for Your Services

At Edward-Elmhurst Health, we understand that the billing for healthcare services can be complex and difficult to manage. As part of our ongoing efforts to provide a seamless experience, we are providing this information to help you understand what to expect from the Edward-Elmhurst Health billing process. We are also including a list of contact numbers for Edward-affiliated healthcare organizations that may be involved in your care and may therefore send you a separate bill.

Billing for Hospital Services

Services rendered at this location are considered hospital outpatient services. For this reason the bill is separated into two portions. The first portion is the hospital bill and consist of all associated costs for your visit including nursing staff, clerical support, and supplies. The second portion is for the physician services provided. See *Billing for Physician Services* section for details.

Shortly after your services at one of our facilities have been completed, a request for payment will be sent to your health insurance plan, if applicable. Depending upon your plan, it typically takes several months to receive payment from an insurance company, but it could take as long as a year. In some cases, you may receive a bill with a request for payment for any balance not covered by your health insurance plan. **For your convenience, payments can be made in person at any of our locations. Please see a registration staff member if you wish to make a payment. You may also make a payment through the MyChart app or online at [eehealth.org](https://www.eehealth.org).**

Billing for Physician Services

You may receive a separate bill for physician services provided during your visit from an Edward-Elmhurst Health affiliated healthcare organization. This bill can be for services from medical specialists such as radiologists, anesthesiologists, and pathologists that were involved in your care. We encourage you to review your health insurance plan benefits for more details.
